

Systems Engineer

Location: Reading UK

An excellent opportunity for a Systems/Product Engineer to further their career by working for a focused and dynamic Microsoft Gold Partner supporting exciting leading edge technologies.

About C2C

- C2C (www.c2c.com) is a UK based provider of E-mail Archiving and other content and performance applications for Microsoft Exchange/Outlook. Exchange is the #1 corporate email system. Email archiving is a really hot subject, with market growth forecast at 5 fold in the next three years.
- Established in 1992, the company is headquartered in Reading, with offices in the US and distribution worldwide. To date C2C has provided software to 3 million users at more than 2000 organizations worldwide.

About The Role

- We need another Systems/Product Engineer for our team, with commitment and flair to add value to our team and the organisation.
- You will be involved in the supporting and installing of our leading edge products.
- Mentoring and support / backup from your colleagues will help you in all aspects of the role, from troubleshooting to more generally, broadening your IT skill set.
- You will be supporting our products that interact with Active Directory, Exchange, Networking and IIS.
- Your flexibility and adaptability will fit into our teams customer focused ethos and high standards.
- The salary is dependent upon current skills, experience and your potential but is likely to be up to £35,000 plus benefits including pension.

About You

- You are a bright, focused, hard-working and highly productive individual looking to further your career as a Systems/Product Engineer.
- You have at least 1 year of commercial experience of supporting IT systems or software products.
- You will be keen to advance your IT and product skills (with training) to expert level and to be using technologies such as Exchange, Networking, Active Directory, Windows Servers and IIS
- You have a real passion for technology and learning; you expect to improve your skills continually and want to join a growing company that provides an environment for success.
- You might know about or be interested in areas such as Messaging, Windows Servers, Systems Infrastructure or Enterprise systems/solutions
- You live within commuting distance of Reading, UK and must be available to work in the UK.

Send your current CV **and a cover letter/email outlining why you are the right person for our team** to hruk@c2c.com quoting reference **SYS08**
